#### SUPPLEMENTARY INFORMATION: 1.

**Summary:** The U.S. Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) is

providing this notification of an upcoming teleconference call meeting of the Environmental Engineering Committee (EEC).

The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice, consultation, and recommendations to the EPA Administrator on the technical basis for Agency positions and regulations. This committee of the SAB will comply with the provisions of the Federal Advisory Committee Act (FACA) and all appropriate SAB policies and procedures.

During the public conference call meeting, to take place at the date and time noted above, the EEC will discuss its proposals for self-initiated projects to be considered by the SAB in FY 2004. Self-initiated projects are scientific and technical projects proposed outside of the normal mechanism of Agency-requested consultations, advisories, and peer reviews. Such projects are intended to address critical needs for anticipatory or cross-cutting scientific and technical advice. All SAB self-initiated projects will be evaluated by the SAB's Executive Committee (EC) during its July 16-17, 2003 public meeting.

The EPA SAB expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. **Oral Comments:** In general, each individual or group requesting an oral presentation at a face-to-face meeting will be limited to a total time of ten minutes (unless otherwise indicated).
